Continuing Our 25th Anniversary

Free Merchandise Certificate with Your Order

PLEASE READ BELOW

IN APPRECIATION of your patronage, and to mark the occasion of our 25th ANNIVERSARY, we at Carroll Gardens are giving with each order a 25th ANNIVERSARY certificate which is redeemable from the time you receive it until May 1, 1959.

Here is how the coupon works: When your order is received by us during the year 1958, a 25th ANNIVERSARY certificate will be sent to you along with the acknowledgment of your order. The coupon will state its value, depending on the amount of your order. If your order comes to \$1.00, you will receive a 10c coupon; if it comes to \$5.00, you will receive a coupon for 50c; and if it comes to \$10.00, you will receive a \$1.00

coupon, etc. In other words, you get ten cents for every \$1.00 of the amount of your order. There is no limit to the size of your order, nor the number of orders you may send.

Here's how these coupons may be redeemed:

1. When you send an order, you may include whatever coupons you have collected and select merchandise in the value of the coupons. If the combination amounts to more than \$9.00, you have no further expenses. If the order and coupons are less than \$9.00, fifty cents handling charge should be added.
2. You also have the choice of sending coupons alone. If the amount of the coupons totals \$9.00, or more, you have no other money to send. If the coupons total less than \$9.00, you should send the coupons and 50c to cover handling charges as explained in our order blank.

All coupons are redeemable in merchandise only—not in cash.

We wish to thank you for your past patronage. It has been through your generous support that Carroll Gardens has been growing constantly for the last 25 years. We will be pleased to have you participate in the ANNIVERSARY of our 25th YEAR and to have you take advantage of the valuable coupons which are offered as a token of appreciation for your help in making Carroll Gardens the success it has enjoyed.

Startling New Lily, JILLIAN WALLACE

(Auratum Hybrid)

This bold and lovely Lily is the best of all the new Auratum Hybrids. It was raised in Australia by Mr. Roy M. Wallace. The fully open flowers are more than 8 inches across, and the plants bear as many as 7 of the huge flowers on 5 to 6-foot stems. The petals are carmine-red with white margins, spotted with intense deep crimson. The petals are slightly crested on the inner edges near the base. The flowers are strongly but nicely scented. Very limited stock, not more than 2 per customer. Flowering-size bulbs, \$6.00 each; 2 for \$11.00.

ROYAL GOLD LILY (The Golden Regale Lily)

This beautiful new variety is identical with the best *L. regale* except for its true golden coloring. The flowers have a most attractive, glistening surface. Seed saved from this golden beauty will come true to color, so there is no reason why you should not try to grow some of these bulbs yourself. Royal Gold is without doubt one of the finest introductions in Lilies. Don't miss it! \$3.00 each; 3 for \$8.00.

NEW ROSES Ready for You

FALL 1958 • SPRING 1959

Thrilling New Varieties First Time Offered

Send your order now and be sure to have them when you wish to plant them either this coming fall or next spring.

IVORY FASHION. Plant Pat. 1688. (Floribunda.) All-America Winner, 1959. The large, graceful, high-pointed flowers are borne in clusters of five to ten, opening slowly. The fully open 4-inch flowers retain their fresh appearance until the end. The petals are firm, heavy textured and hold their color. Foliage is rich dark green and disease resistant. New stems carry on the blooming period so there is always color on the plant. \$2.75 each; 3 for \$7.20.

KORDES PERFECTA. Plant Pat. 1604. (Hybrid Tea.) An intriguing color combination, completely different from any other Rose. The buds begin to show color as petals separate and from then on it is a constantly changing picture: cream-white, lined pink and carmine at edges, deepening throughout as the flower opens to a most pleasing and unusual combination of pink and white suffused with yellow. The free-blooming flowers are 4½ to 5 inches in diameter and extremely long lasting on the plant and when cut. The plant is vigorous, with luxuriant, dark glossy green foliage. One of the most outstanding Hybrid Tea Roses in years. \$3.50 each; 3 for \$9.20.

LAVENDER GIRL. Plant Pat. 1672. (Floribunda.) We believe this to be the finest lavender Rose we have seen. The beautifully formed, urn-shaped buds have a ruby-red tinge changing to rosy lavender with magenta-edged petals. The fully open, soft lavender flowers hold their color well. Plants are low growing and foliage is disease resistant. \$5.00 each; 3 for \$12.75.

PINK PEACE. Plant Pat. Applied for. (Hybrid Tea.) Deep dusty pink of terrific size and of greater free-blooming quality than Peace. The huge, luminous, fragrant blooms are borne one to a long sturdy stem, opening from shapely fat buds to very double, very full cupped flowers of from 60 to 65 petals. These roll outward in a most graceful manner, giving the tremendous 6-inch blossoms a handsomely modeled form. Pink Peace is a vigorous, bushy, upright grower with large, leathery, disease-resistant foliage. Altogether this is a remarkably fine Rose. \$3.00 each; 3 for \$7.95.

STARFIRE. Plant Pat. Applied for. (Grandiflora.) All-America Winner, 1959. A tall-growing, unusual non-fading currant-red, with unique luminous texture and depth to each velvety petal. Starfire blooms freely, singly on long stems or in clusters, and with a background of glossy bronzy green, holly-like foliage, is ideally suited for cut-flower use. \$3.50 each; 3 for \$9.20.

Oriental Poppies

to Plant from Late August to November

Oriental Poppies, with their brilliant gigantic blooms, are among the very finest perennials for the garden, particularly now that soft pastel tints are available, ranging from the softest of pink to deep red and white. They are easily grown and once established will live for many years. The best time to plant them is September and October. Poppies should be planted deeper than the general run of perennials. Set the crowns approximately 2 inches below the level of the ground. Mulch the first winter after planting, using excelsior, pine branches, or other material of similar nature. This mulch should not be applied until the ground is frozen, possibly November or December, depending on the locality. The plants offered here are strong, field-grown specimens and should bloom satisfactorily next year. *Order now.*

McKANA'S GIANT COLUMBINE

BETTER PERENNIALS

NEW GIANT HYBRID COLUMBINE

McKana's Giant Columbine. The first and only perennial ever to win the All-America Seed Selections Award. Plant them in your garden and next spring you will see for yourself why they won this coveted award. The flowers are huge—3 to 4 inches across—with 4 to 5-inch spurs, far larger than any other Columbine we have ever seen. The colors are exquisite shades of red, rose, pink, yellow, cream, white, lavender, purple, blue, some self-colored, but mostly pleasing combinations. Our field-grown plants will bloom for you next spring. They grow 2 to 3 feet tall and thrive in ordinary soil in sun or partial shade. Hardy, they will come up year after year. Lovely in the garden and for cutting. Grown in a grand assortment of colors, a beautiful harmonious blend. 3 for \$2.00; 6 for \$3.50; 12 for \$6.00; 25 for \$11.00.

DELPHINIUMS

Delphiniums are among the most stately and impressive of all perennials. They produce handsome spikes of gorgeously colored blooms that make a wonderful display in the border and are also fine for cutting. They should be planted in masses at the rear of the hardy border in a sunny or partially shaded location. Full morning sun is preferred.

Pacific Hybrids. The individual flowers are very large, often 2½ inches across on spikes 3 to 4 feet long. Colors range from white, sky-blue to deep blue, purple, violet and exquisite shades of orchid-pink. The plants grow 5 to 7 feet tall. Cut the stems after the first great burst of bloom and they will repeat. 65c each; 3 for \$1.65; 6 for \$3.00; 12 for \$5.25.

Named Varieties of the Pacific Hybrids

Any of the above, 70c each; 3 for \$1.80; 6 for \$3.15

We suggest that you order at least six plants so as to be sure of getting some pink ones. The other shades run from purest white to dark blue and mauve. All have giant, double flowers. Mixed colors only. 75c each; 3 for \$2.00; 6 for \$3.50; 12 for \$6.50.

CARROLL GARDENS *Finest* PEONIES

Peonies are long-lived plants that do not require transplanting unless they show signs of deterioration. For that reason it is worthwhile to be particular about the place where they are to be planted. Choose a sunny location that gets good drainage. Dig deep, and use some well-rotted cow manure or a commercial fertilizer to enrich the soil. Bonemeal is also recommended. Fall is the best time to plant Peonies. Plant so that the eyes are 1½ to 2 inches below the soil surface.

The varieties offered here are the very finest in their class; only the highest rated are offered. The plants offered are strong, 3 to 5-eye, healthy plants and should give excellent results. Most of them will bloom next spring.

TREE PEONIES

This famous group is the shrub type. The stems do not die to the ground each year as the herbaceous Peonies do, and in the course of many years they will reach the height of 3 to 4 feet. Most varieties bloom in early spring—late April to the end of May, depending on the locality. They are of easy culture and grow anywhere other Peonies do. It is best, however, to plant them where they are sheltered from sweeping wind.

Prices quoted are for 2-year-old, 5-inch pot plants. Field-grown plants are available at 2½ times the prices quoted for potted plants. We also have many additional varieties.

PEONY OFFICINALIS

(Early or May-Blooming Peonies)

In this group belongs the early red Peony of our grandmother's garden. However, some outstanding new varieties have been developed and are offered here. This group will help greatly to extend the Peony season due to the fact that they come into bloom about two weeks earlier than others.
